EDUCATION

Einstein College of Engineering

B.E., Computer Science and Engineering

Tirunelveli, India

2024-2028

Government Hr. Sec. School

Higher Secondary School Examination (Score: 86.4%)

Tenkasi, India

2024

TECHNICAL SKILLS

Languages: Java, Python, C

Web Development Frameworks: HTML, CSS, JavaScript, ReactJS, Bootstrap

Version Control Systems: Git, GitHub

PROJECTS

RAG Assistant | *Python, FAISS, SentenceTransformers, Google Gemini API*

- Developed a Retrieval-Augmented Generation (RAG) system to process scientific text and generate context-aware comprehension questions.
- Implemented FAISS for fast and efficient vector similarity search over large document embeddings.
- Used SentenceTransformer to convert raw text into dense semantic embeddings for accurate information retrieval.
- Integrated Gemini (Google Generative AI) to generate high-quality, context-aware questions from retrieved content.

Crud Page | *HTML, CSS, JavaScript*

- Developed a CRUD web application for managing user records.
- Implemented Create, Read, Update, and Delete operations using JavaScript.
- Designed a responsive and user-friendly interface.
- Applied form validation to ensure data accuracy.
- Enhanced user experience through dynamic content updates.

WhatsApp UI Clone | *ReactJS*

- Developed a WhatsApp-inspired messaging interface using ReactJS.
- Implemented conditional rendering for dynamic UI updates.
- Created reusable React components for better maintainability.
- Designed a responsive layout compatible with multiple devices.
- Improved front-end development skills through component-based architecture.

Zacebook | *ReactJS*

- Built a social media-inspired application using ReactJS.
- Utilized Props and useState for component communication and state management.
- Created reusable UI components for scalability.
- Implemented interactive features to enhance user engagement.
- Applied React best practices for maintainable code.

Animals Sound | *HTML, CSS, JavaScript*

- Developed an interactive application that plays animal sounds on user interaction.
- Implemented JavaScript event handling for audio playback.
- Designed an engaging and responsive user interface.
- Enhanced user experience through interactive functionality.
- Demonstrated DOM manipulation and multimedia integration skills.

Web Piano | *HTML, CSS, JavaScript*

- Built a virtual piano application capable of generating musical notes.
- Implemented keyboard and mouse-based interactions.
- Integrated audio playback using JavaScript.
- Designed an intuitive and responsive interface.
- Applied event-driven programming concepts for real-time interaction.

My First React App | *ReactJS*

- Developed a beginner-friendly React application to understand component-based development.
- Implemented reusable React components and basic state management to create an interactive user interface.

Fruits Page | *HTML, CSS*

- Developed a responsive webpage showcasing fruits using Flexbox and Flex-Wrap layouts.

Vegetables Page | *HTML, CSS*

- Created a responsive website displaying vegetable information using modern CSS Flexbox techniques.

Virus Page | *Bootstrap*

- Built an informative and responsive webpage using Bootstrap components and grid systems.

Dolphin Page | *HTML, CSS*

- Designed a visually appealing webpage presenting information about dolphins.

Green Calculator | *HTML, CSS, JavaScript*

- Developed a web-based calculator capable of performing basic arithmetic operations.

Insects Page | *HTML, CSS (Media Query)*

- Created a responsive website showcasing insect information using CSS media queries..

ACHIEVEMENTS/ACTIVITIES

- **Tamil Talent Search Examination (TTSE) Scholarship Recipient**

Qualified in the Tamil Talent Search Examination (TTSE) conducted by the Government of Tamil Nadu at the district level during 11th standard. Selected for a merit-based scholarship in recognition of academic excellence and strong aptitude.

- **Error Hunt Competition – Triogenix'26 Technical Symposium**

Participated in the Error Hunt competition held as part of Triogenix'26 Technical Symposium at Thamirabharani Engineering College, Tirunelveli (MAR 2026). Gained hands-on experience in debugging and problem-solving by identifying and correcting programming errors.

- **LLM-Based Chatbot – National Level Technical Symposium, P.S.R. Engineering College, Sivakasi**

Presented and developed an AI-powered chatbot project using Large Language Model (LLM) concepts at a National Level Technical Symposium. The chatbot is designed to understand natural language queries and generate intelligent, human-like responses. It improves user interaction by providing context-aware answers and simulating conversational AI behavior. The project demonstrates the application of modern AI techniques in real-time communication systems and enhances automation in information retrieval. (SEP 2025)

- **Painting Competition – Kalaithiruvizha (Government of Tamil Nadu)**

Selected for district-level participation in a painting competition conducted under Kalaithiruvizha by the Government of Tamil Nadu. The event was held at Kongunadu Engineering College, Trichy, and showcased creative and artistic abilities through visual expression.(2023 - 2024)

- **SoloLearn Certifications**

Completed 9 certifications from SoloLearn covering programming and web development, including HTML, CSS, JavaScript, Python (beginner to intermediate), Web Development, Python Developer, JavaScript Intermediate, and C Programming. Strengthened core skills in programming fundamentals and web technologies through hands-on practice.
